## INDEPENDENT AUDITOR'S REPORT

To the Board of Education  
Quogue Union Free School District

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the fiduciary fund of the Quogue Union Free School District, as of and for the fiscal year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### *Opinions*

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the fiduciary fund of the Quogue Union Free School District, as of June 30, 2020, and the respective changes in financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

## ***Other Matters***

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in District's total OPEB liability, schedule of District's proportionate share of the net pension liability, and the schedule of District's contributions on pages 1 through 13 and 52 through 56, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Quogue Union Free School District's basic financial statements. The other supplementary financial information as listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements.

The other supplementary financial information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary financial information is fairly stated in all material respects in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2020 on our consideration of the Quogue Union Free School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Quogue Union Free School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Quogue Union Free School District's internal control over financial reporting and compliance.

**QUOGUE UNION FREE SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

The following is a discussion and analysis of the Quogue Union Free School District's (the "District") financial performance for the fiscal year ended June 30, 2020. This section is a summary of the District's financial activities based on currently known facts, decisions, or conditions. It is also based on both the District-Wide and Fund Based Financial Statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the District's financial statements, which immediately follow this section.

**1. FINANCIAL HIGHLIGHTS**

- On June 9, 2020, the proposed 2020-2021 budget in the amount of \$9,240,211 was approved by the District's residents. The property tax levy was below the property tax cap.
- The District continued to invest the majority of its resources in educating the students of Quogue, as evidenced by instructional expenses of 79.31% of total expenses for the 2019-20 fiscal year, on the District-Wide Financial Statements.
- The District funded the teachers' retirement system (TRS) reserve in the amount of \$57,970. The reserve limits the annual contribution to the reserve to 2% of the prior year's covered TRS salaries.
- On March 11, 2020, the World Health Organization declared coronavirus (COVID-19) disease as a global pandemic. Schools, along with all but essential businesses, were ordered closed by the State of New York, and remote learning was conducted for the remainder of the school year. The closure of schools resulted in some areas of savings primarily in the area of transportation, but also included unforeseen expenses such as personal protective equipment and cleaning of buildings.

**2. OVERVIEW OF THE FINANCIAL STATEMENTS**

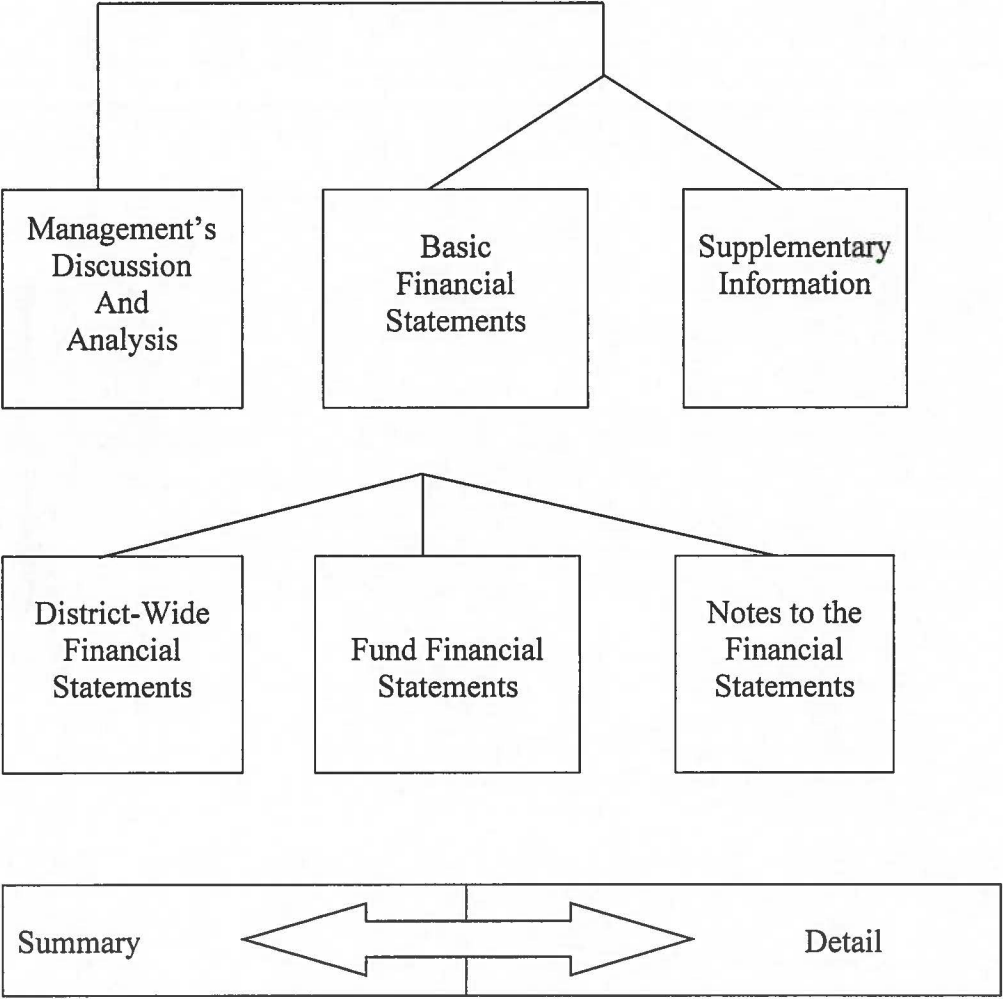

This annual report consists of four parts: management's discussion and analysis (this section), the basic financial statements, required supplementary information and other supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *District-Wide Financial Statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *Fund Financial Statements* that focus on *individual parts* of the District, reporting the operations in *more detail* than the District-Wide Financial Statements.
  - The *Governmental Fund Statements* tell how basic services such as instruction and support functions were financed in the *short term* as well as what remains for future spending.
  - *Fiduciary Funds Financial Statements* provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, including the employees of District.

**QUOGUE UNION FREE SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

The financial statements also include notes that provide additional information about the financial statements and the balances reported. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. The table shows how the various parts of this annual report are arranged and relate to one another.

Organization of the District's Annual Financial Report

The table summarizes the major features of the District's financial statements, including the portion of the District's activities that they cover and the types of information that they contain. The remainder of this overview section of Management's Discussion and Analysis highlights the structure and contents of each of the statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

**A) District-Wide Financial Statements**

The District-Wide Financial Statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two District-Wide Financial Statements report the District's net position and how they have changed. Net position, the difference between the assets and deferred outflows of resources, and liabilities and deferred inflows of resources is one way to measure the financial health or position.

- Over time, increases and decreases in net position are an indicator of whether the financial position is improving or deteriorating, respectively.
- For assessment of the overall health of the District, additional non-financial factors such as changes in the District's property tax base and the condition of buildings and other facilities should be considered.

Net position of the governmental activities differ from the governmental fund balances because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets are reported as expenditures when financial resources (money) are expended to purchase or build said assets. Likewise, the financial resources that may have been borrowed are considered revenue when they are received. The principal and interest payments are both considered expenditures when paid. Depreciation is not calculated if it does not provide or reduce current financial resources. Finally, capital assets and long-term debt are both accounted for in account groups and do not affect the fund balances.

District-Wide Financial Statements are reported utilizing an economic resources measurement focus and full accrual basis of accounting that involves the following steps to format the Statement of Net Position:

- Capitalize current outlays for capital assets;
- Report long-term debt as a liability;
- Depreciate capital assets and allocate the depreciation to the proper program/activities;
- Calculate revenue and expense using the economic resources measurement focus and the accrual basis of accounting; and
- Allocate net position balances as follows:
  - *Net investment in capital assets*;
  - *Restricted net position* are those with constraints placed on the use by external sources (creditors, grantors, contributors or laws or regulations of governments) or approved by law through constitutional provisions or enabling legislation;
  - *Unrestricted net position* is net position that does not meet any of the above restrictions.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

**B) Fund Financial Statements**

The Fund Financial Statements provide more detailed information about the District's funds. Funds are accounting devices that the District uses to keep track of specific revenue sources and spending on particular programs. The funds have been established by the laws of the State of New York.

The District has two kinds of funds:

i) Governmental funds

Most of the basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the programs of the District. Because this information does not encompass the additional long-term focus of the District-Wide Financial Statements, additional information in separate reconciliation schedules explains the relationship (or differences) between them. In summary, the governmental fund statements focus primarily on the sources, uses and balance of current financial resources and often have a budgetary orientation. Included are the general fund, special aid fund, school lunch fund, and capital projects fund. Required statements are the Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balances.

ii) Fiduciary funds

The District is the trustee or *fiduciary* for assets that belong to others, such as scholarship funds and student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-Wide Financial Statements because it cannot use these assets to finance its operations. Fiduciary fund reporting focuses on net position and changes in net position. This report should be used to support the District's own programs and is developed using the economic resources measurement focus and the accrual basis of accounting, except for the recognition of certain liabilities of defined benefit pension plans and certain post-employment healthcare plans.

**3. FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE**

**A) Net Position**

The District's total net position increased by \$168,629 in the fiscal year ended June 30, 2020 as detailed below.

**QUOGUE UNION FREE SCHOOL DISTRICT

Total liabilities and deferred inflows of resources	16,657,641	15,771,461	886,180	5.62%
Net position				
Net investment in capital assets	2,936,864	3,067,261	(130,397)	-4.25%
Restricted	2,045,664	1,975,306	70,358	3.56%
Unrestricted (deficit)	(9,724,399)	(9,953,067)	228,668	2.30%
Total net position (deficit)	\$ (4,741,871)	\$ (4,910,500)	\$ 168,629	3.43%

Current assets increased \$449,095 from 2019 to 2020 primarily due to an increase in cash and an increase in due from fiduciary fund. Capital assets (net of depreciation) decreased by \$130,397 due to current year depreciation exceeding additions. The District reported an increase in the net pension asset - proportionate share for the teachers' retirement system in the amount of \$157,907 as a result of the actuarial valuation provided by the state. The accompanying Note to Financial Statements, Note 12 "Pension Plans", provides additional information. Deferred outflows of resources related to the pension plans and other post-employment benefits increased by \$578,204, and represents contributions to the retirement plans and other post-employment benefits plan subsequent to the measurement dates and actuarial determined amounts that will be amortized in future years.

Other liabilities decreased by \$126,905. This was primarily attributed to decreases in accounts payable, due to other governments and due to teachers' retirement system, offset by an increase in accrued liabilities. Long-term liabilities decreased by \$2,942,429 primarily due to a decrease in total other post-employment benefits obligation offset by an increase in net pension liability-proportionate share-employees' retirement system.

The changes in deferred inflows of resources represent amortization of pension and other post-employment benefits related items as discussed in Notes 12 and 14.

**QUOGUE UNION FREE SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

The net investment in capital assets relates to the investment in capital assets at cost such as land, construction in progress, buildings & improvements, and furniture & equipment, net of depreciation and related debt. This number decreased from the prior year by \$130,397 due to current year depreciation exceeding additions.

The restricted net position in the amount of \$2,045,664 refers to the District's reserves: workers' compensation, repair, retirement contribution, employee benefit accrued liability, and capital. The increase of \$70,358 can be attributed to the funding of the retirement contribution for TRS in the amount of \$57,970, and allocation of interest to the reserves in the amount of \$12,388.

The unrestricted net deficit relates to the balance of the District's net position. The deficit of (\$9,724,399) decreased by \$228,668, primarily due to the excess of revenues over expenditures based on the accrual basis of accounting.

**B) Changes in Net Position**

The results of operations as a whole are reported in the Statement of Activities. A summary of this statement for the years ended June 30, 2020 and 2019 is as follows:

MANAGEMENT’S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

The District’s fiscal year 2020 revenues totaled \$8,217,718. Real property taxes and other tax items and state sources accounted for most of the District’s revenue by contributing 93.92% and 4.44%, respectively of total revenue. The remainder came from fees charged for services, operating grants, use of money and property, sale of property and compensation for loss and other miscellaneous sources.

The total cost of all programs and services totaled \$8,049,449 for fiscal year 2020. These expenses are predominantly related to general instruction and caring for (pupil services) and transporting students, which account for 81.62% of district expenses. The District’s general support activities accounted for 17.97% of total costs.

The users of the District’s programs financed \$52,299 of the cost. The federal and state governments subsidized certain programs with operating grants of \$21,367.

**4. FINANCIAL ANALYSIS OF THE DISTRICT’S FUNDS**

Variations between years for the governmental Fund Financial Statements are not the same as variations between years for the District-Wide Financial Statements. The District’s governmental funds are presented on the **current financial resources measurement focus** and the **modified accrual basis of accounting**. Based on this presentation, governmental funds do not include long-term debt liabilities for the funds’ projects and capital assets purchased by the funds. Governmental funds will include the proceeds received from the issuance of debt, the current payments for capital assets, and the current payments for debt.

As of June 30, 2020, the District’s combined governmental funds reported a total fund balance of \$5,009,364 which is an increase of \$566,639 from the prior year. This increase is due to an increase in the general fund from operations of \$556,764, an increase in the school lunch fund from operations of \$32 and an increase in the capital projects fund of \$9,843.

The increase in fund balance in the general fund is due to revenues exceeding expenditures and other financing uses by \$556,764.

The increase in the fund balance of the school lunch fund is due to revenues exceeding expenditures by \$32.

The capital projects fund is due to other financing sources exceeding expenditures by \$9,843.

**QUOGUE UNION FREE SCHOOL DISTRICT  
MANAGEMENT’S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

**5. GENERAL FUND BUDGETARY HIGHLIGHTS**

**A) 2019-2020 Budget**

The District’s voter approved general fund adopted budget for the year ended June 30, 2020 was \$8,757,968. This amount was increased by encumbrances carried forward from the prior year in the amount of \$46,225 which resulted in a final budget of \$8,804,193. The majority of the funding was real property taxes and STAR revenue of \$7,716,927.

**B) Change in the General Fund Unassigned Fund Balance (Budget to Actual)**

The general fund’s unassigned fund balance is a component to total fund balance that is the residual of prior years’ excess revenues over expenditures, net of transfers to reserves and designations to fund subsequent years’ budgets. It is this balance that is commonly referred to as “fund balance”. The change in this balance demonstrated through a comparison of the actual revenues and expenditures for the year compared to budget are as follows:

Opening, unassigned fund balance	\$ 1,803,612
Revenues under budget	(23,317)
Expenditures and encumbrances under budget	1,100,167
Interest allocated to reserves	(12,388)
Funding to retirement contribution reserve - TRS	(57,970)
Assigned, appropriated for June 30, 2021 budget	(943,405)
Closing, unassigned fund balance	\$ 1,866,699

The opening, unassigned fund balance of \$1,803,612 represents the fund balance from June 30, 2019 that was retained.

The revenues under budget of \$23,317 were primarily related to non-resident tuition revenue. (See Supplemental Schedule # 1 for detail).

The expenditures and encumbrances under budget of \$1,100,167 were primarily in teaching – regular school, programs for children with handicapping conditions, pupil transportation, and employee benefits. (See Supplemental Schedule #1 for detail).

Interest of \$12,388 was allocated to the reserves as follows: \$3,919 to the workers’ compensation reserve, \$190 to the repair reserve, \$4,722 to the retirement contribution reserve - ERS, \$792 to the retirement contribution reserve – TRS, \$1,875 to the employee benefit accrued liability reserve and \$890 to the capital reserve.

The District transferred into the retirement contribution reserve – TRS in the amount of \$57,970.

The assigned, appropriated fund balance of \$943,405 for the June 30, 2021 budget is the amount the District has chosen to partially fund its operating budget for 2020-2021.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

The closing, unassigned fund balance of \$1,866,699 represents the fund balance retained by the District that is not restricted or assigned for subsequent years' taxes. This amount is limited to 4% of the 2020-2021 budget. The District's unassigned fund balance exceeds the limit, and represents 20.20% of the 2020-2021 budget. Supplemental Schedule #5 includes the calculation for this limitation.

**6. CAPITAL ASSET AND DEBT ADMINISTRATION**

**A) Capital Assets**

A summary of the District's capital assets, net of depreciation, is as follows:

Capital Assets (Net of Depreciation)

<u>Category</u>	<u>Fiscal Year 2020</u>	<u>Fiscal Year 2019</u>	<u>Increase (Decrease)</u>	<u>Percentage Change</u>
Land	\$ 155,600	\$ 155,600	\$ -	0.00%

Less: accumulated depreciation	<u>2,630,054</u>	<u>2,475,220</u>	<u>154,834</u>	6.26%
Total net capital assets	<u>\$ 2,936,864</u>	<u>\$ 3,067,261</u>	<u>\$ (130,397)</u>	-4.25%

The District had capital asset additions of \$24,437 and depreciation expense of \$154,834.

**B) Long-Term Debt**

The District had no long-term debt outstanding as of June 30, 2020.

**QUOGUE UNION FREE SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

**7. FACTORS BEARING ON THE DISTRICT'S FUTURE**

- On June 9, 2020 the proposed 2020-2021 budget in the amount of \$9,240,211 was authorized by the District's residents. This is an increase of \$482,243 or 5.5% as compared to the previous year's budget. The tax cap discussed below, as well as uncertainty in state aid and federal funds, as well as potential operating adjustments that may be needed due to COVID-19 may impact the District's future budgets.
- The NYS Legislature introduced and approved a property tax cap beginning in the 2012-2013 school year, which was made permanent. This bill limits tax levy growth to the lesser of two percent or the annual increase in the CPI. Limited exemptions to exceed the levy cap are provided for taxes needed to pay for voter-approved capital expenditures, pension rate increases, court orders and torts over five percent of the prior year's levy. If the tax levy proposed to the voters is within the district's tax levy cap, the threshold required for approval would be 60 percent of the vote. A school district that does not levy an amount up to the cap in any one year would be allowed to carry over unused tax levy capacity into future years.

**8. CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide citizens, taxpayers, customers, and investors and creditors with a general overview of the finances of the District and to demonstrate our accountability with the money we receive. Amounts reported for governmental activities in the Statement of Activities are different because:		
Long Term Revenue and Expense Differences		
Deferred inflows of resources - The Statement of Net Position recognized revenues received under the full accrual method. Governmental funds recognize revenue under the modified accrual method. NOTES TO FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Exhibit 9

**NOTE 1 – SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES:**

The financial statements of Quogue Union Free School District (the “District”) have been prepared in conformity with generally accepted accounting principles (GAAP) as they apply to governmental units. The Governmental Accounting Standards Board (GASB) prescribes those principles, which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Certain significant accounting principles and policies utilized by the District are described below:

**A) Reporting entity:**

The laws of New York State govern the District. The District is an independent entity governed by an elected Board of Education consisting of five members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The reporting entity of the District is based upon criteria set forth by GASB Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units* and GASB Statement No. 61, *The Financial Reporting Entity: Omnibus-An Amendment of GASB Statements No. 14 and No. 34*. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District and its component unit and other organizational entities determined to be includable in the District’s financial reporting entity. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District’s reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the District does not have a component unit in the financial reporting entity.

**B) Joint venture:**

The District is a component district in the Eastern Suffolk Board of Cooperative Educational Services (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs, which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES Board as a

**QUOGUE UNION FREE SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Exhibit 9

corporation (§1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the New York State General Municipal Law.

A BOCES' budget is comprised of separate budgets for administrative, program and capital costs. Each component district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, §1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

**C) Basis of presentation:**

i) District-Wide Financial Statements:

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, state aid, intergovernmental revenues, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital specific grants, if applicable.

The Statement of Activities presents a comparison between program expenses and revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expended for those areas. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

ii) Fund Financial Statements:

The Fund Financial Statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The District reports the following major governmental funds:

**General Fund:** This fund is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

**Special Aid Fund:** This fund accounts for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified

**QUOGUE UNION FREE SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Exhibit 9

purposes. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.

**School Lunch Fund:** This fund is used to account for the activities of the District's food service operations.

**Capital Projects Fund:** This fund is used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.

The District reports the following fiduciary fund:

**Fiduciary Funds:** These funds are used to account for fiduciary activities. Fiduciary activities are those in which the District acts as trustee or agent for resources that belong to others. These activities are not included in the District-Wide Financial Statements, because their resources do not belong to the District, and are not available to be used. There are two classes of fiduciary funds, however the District only utilizes the agency fund.

**Agency funds:** These funds are strictly custodial in nature and do not involve the measurement of results of operations. Assets are held by the District as agent for various student groups and for payroll or employee withholding.

**D) Measurement focus and basis of accounting:**

The District-Wide and Fiduciary Fund Financial Statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from real property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The Fund Financial Statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within one year after the end of the fiscal year, except for real property taxes, which are considered to be available if they are collected within 60 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, compensated absences, net pension liabilities, and other post-employment benefits obligations which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are

**QUOGUE UNION FREE SCHOOL DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Exhibit 9

reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

**E) Real property taxes:**

i) Calendar

Real property taxes are levied annually by the Board of Education no later than October 1, and become a lien on December 1. Taxes are collected by the Town of Southampton during the period December 1, 2019 to June 1, 2020 without penalty.

ii) Enforcement

Uncollected real property taxes are subsequently enforced by Suffolk County (the "County") in which the District is located. The County pays an amount representing uncollected real property taxes transmitted to the County for enforcement to the District no later than the following July 1.

**F) Restricted resources:**

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these Notes.

**G) Interfund transactions:**

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditures and revenues to provide financing or other services.

In the District-Wide Statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds, with the exception of those due from or to the fiduciary fund.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

Refer to Note 9 for a detailed disclosure by individual fund for interfund receivables, payables, expenditures and revenues activity.

**H) Estimates:**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent items at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of compensated absences, other post-employment benefits, workers' compensation claims, net pension asset/liability, potential contingent liabilities and useful lives of capital assets.

**I) Cash and cash equivalents:**

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Certain cash balances are restricted by various legal and contractual obligations, such as legal reserves and debt agreements.

**J) Receivables:**

Receivables are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

**K) Prepaid items:**

Non-spendable fund balance for these non-liquid assets (prepaid items) has been recognized in the general fund under GASB Statement No. 54 to signify that a portion of fund balance is not available for other subsequent expenditures.

Prepaid items represent payments made by the District for which benefits extend beyond year-end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the District-Wide and Fund Financial Statements. These items are reported as assets on the Statement of Net Position or Balance Sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed. The District had no prepaid items as of June 30, 2020.

**L) Capital assets:**

Capital assets are reported at actual cost for acquisitions subsequent to 20 years. For assets acquired prior to 20 years, estimated historical costs, based on appraisals conducted by independent third-party professionals. Donated assets are reported at acquisition value at the time received.

Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the District-Wide Statements are as follows:

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Building & improvements	\$ 15,000	Straight-line	50 years
Site improvements	\$ 15,000	Straight-line	20 years
Furniture, equipment & vehicles	\$ 5,000	Straight-line	5-20 years

**M) Collections in advance:**

Collections in advance arise when the District receives resources before it has legal claim to them, as when grant monies are received prior to the incidence of qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the District has legal claim to the resources, the liability for collections in advance is removed and revenues are recorded. The District had no collections in advance as of June 30, 2020.

**N) Deferred outflows and inflows of resources:**

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two items that qualify for reporting in this category. These amounts are related to pensions and the other post-employment benefits liability reported in the District-Wide Statement of Net Position, and are detailed further in Notes 12 and 14.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. These amounts are related to pensions and the other post-employment benefits liability reported in the District-Wide Statement of Net Position, and are detailed further in Notes 12 and 14.

In addition to liabilities, the Governmental Funds Balance Sheet will sometimes report deferred inflows of resources when potential revenues do not meet the availability criterion for recognition in the current period. These amounts are recorded as deferred inflows of resources. In subsequent periods, when the availability criterion is met, deferred inflows of resources are classified as revenues. The District-Wide Financial Statements, however, report these deferred inflows of resources as revenues in accordance with the accrual basis of accounting and economic resources measurement focus. Due to the COVID-19 pandemic and revenue losses suffered by the State of New York, New York mandated a 20% withholding of certain state aid allocations due to the District at June 30, 2020. In the Governmental Funds Balance Sheet, the general fund reported \$9,361, of this state aid due as unavailable revenue.

**QUOGUE UNION FREE SCHOOL DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Exhibit 9

**O) Vested employee benefits:**

Compensated absences:

Compensated absences consist of unpaid accumulated annual sick leave, vacation, and sabbatical time.

Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation or death, employees may contractually receive a payment based on unused accumulated sick leave. Certain collectively bargained agreements require these termination payments to be paid in the form of non-elective contributions into the employee's 403(b) plan.

The District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Consistent with GASB Statement No. 16, *Accounting for Compensated Absences*, the liability has been calculated using the vesting/termination method and an accrual for that liability is included in the District-Wide Financial Statements. The compensated absences liability is calculated based on the pay rates in effect at year-end.

In the Funds Financial Statements only the amount of matured liabilities for those employees that have obligated themselves to separate from service with the District by June 30<sup>th</sup> is accrued within the general fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you go basis.

**P) Other benefits:**

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System.

District employees may choose to participate in the District's elective deferred compensation plans established under Internal Revenue Code Section 403(b).

In addition to providing pension benefits, the District provides post-employment health insurance coverage and survivor benefits for retired employees and their survivors in accordance with the provision of various employment contracts in effect at the time of retirement. Substantially all of the District's employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure in the governmental funds as the liabilities for premiums mature (come due for payments). In the District-Wide Financial Statements, the cost of post-employment health insurance coverage is recognized on the accrual basis of accounting in accordance with GASB Statement No. 75.

NOTES TO FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Exhibit 9

**Q) Short-term debt:**

The District may issue Revenue Anticipation Notes (RAN) and Tax Anticipation Notes (TAN), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund.

The District may issue budget notes up to an amount not to exceed 5% of the amount of the annual budget during any fiscal year for expenditures for which there is an insufficient or no provision made in the annual budget. The budget note must be repaid no later than the close of second fiscal year succeeding the year in which the note was issued.

The District may issue Bond Anticipation Notes (BAN), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes be converted to long-term financing within five years after the original issue dated.

**R) Accrued liabilities and long-term obligations:**

Payables, accrued liabilities and long-term obligations are reported in the District-Wide Financial Statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, compensated absences, net pension liability, and other post-employment benefits obligation that will be paid from governmental funds, are reported as a liability in the Fund Financial Statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the Fund Financial Statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year on the Statement of Net Position.

**S) Equity classifications:**

i) District-Wide Financial Statements:

In the District-Wide Financial Statements, there are three classes of net position:

Net investment in capital assets consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, constructions or improvements of those assets, net of any unexpended proceeds and including any unamortized items (discounts, premiums, gain on refunding).

Restricted net position – reports net position when constraints placed on the assets are either externally imposed by creditors (such as through debt covenants), grantors,

**QUOGUE UNION FREE SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Exhibit 9

contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – reports all other net position that do not meet the definition of the above two classifications and are deemed to be available for general use by the District.

ii) Fund Financial Statements:

There are five classifications of fund balance as detailed below; however, in the Fund Financial Statements there are three classifications of fund balance presented:

- (1) **Non-spendable fund balance** – includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. The District did not have any non-spendable fund balance as of June 30, 2020.
- (2) **Restricted fund balance** – includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

The District has classified the following as restricted:

Workers' Compensation Reserve:

Workers' compensation reserve (GML §6-j), must be used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. This reserve is accounted for in the general fund under restricted fund balance.

Repair Reserve

According to General Municipal Law §6-d, must be used to pay the cost of repairs to capital improvements or equipment, which repairs are of a type not recurring annually. The Board of Education without voter approval may establish a repair reserve fund by a majority vote of its members. Voter approval is required to fund this reserve (Opinion of the New York State Comptroller 81-401). Expenditures from this reserve may be made only after a public hearing has been held, except in emergency situations. If no hearing is held, the amount expended must be repaid to the reserve fund over the next two subsequent fiscal years. This reserve is accounted for in the general fund under restricted fund balance.

**QUOGUE UNION FREE SCHOOL DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Exhibit 9

Retirement Contribution Reserve:

Retirement contribution reserve (GML §6-r) must be used for financing retirement contributions to the New York State and Local Employees' Retirement System. In addition, a subfund of this reserve may also be created to allow for financing retirement contributions to the New York State Teachers' Retirement System. The reserve must be accounted for separate and apart from all other funds, and a detailed report of the operation and condition of the fund must be provided to the Board. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. The Teachers' Retirement System subfund is subject to contribution limits. This reserve is accounted for in the general fund under restricted fund balance.

Employee Benefit Accrued Liability Reserve:

Employee benefit accrued liability reserve (GML §6-p), must be used for the payment of accrued employee benefit due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. This reserve is accounted for in the general fund under restricted fund balance.

Capital Reserve

Capital reserve (Education Law §3651) must be used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term and the source of the funds. Expenditures may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education law. This reserve is accounted for in the general fund under restricted fund balance.

- (3) **Committed fund balance** – includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision making authority (i.e., Board of Education). The District has no committed fund balances as of June 30, 2020.
- (4) **Assigned fund balance** – includes amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. This intent can be expressed by the Board or through the Board delegating this responsibility to the District management through Board policies. The District has established a Fund Balance policy that allows the Board of Education to set forth the fund balance that is assigned. This classification also includes the remaining positive fund balance for all governmental funds except for the general fund.

**QUOGUE UNION FREE SCHOOL DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Exhibit 9

- (5) **Unassigned fund balance** – includes the residual fund balance for the general fund and includes residual fund balance deficits of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts. Assignments of fund balance cannot cause a negative unassigned fund balance.

NYS Real Property Tax Law 1318 limits the amount of unexpended surplus funds a District can retain to no more than 4% of the District's budget for the general fund for the ensuing fiscal year. Non-spendable and restricted fund balance of the general fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances included in assigned fund balance are also excluded from the 4% limitation. The current closing unassigned fund balance represents 20.20% of the 2020-2021 budget.

**Order of Use of Fund Balance:**

The District's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance and unassigned fund balance at the end of the fiscal year. For all funds, non-spendable fund balances are determined first and then restricted fund balances for specific purposes are determined. Any remaining fund balance amounts for funds other than the general fund are classified as assigned fund balance. In the general fund, committed fund balance is determined next and then assigned. The remaining amounts are reported as unassigned.

**T) Future changes in accounting standards:**

GASB has issued Statement No. 84, *Fiduciary Activities*, effective for the fiscal year ended June 30, 2021. It provides guidance for identifying fiduciary activities, primarily based on whether the government is controlling the assets, and the beneficiaries with whom the fiduciary relationship exists, and on how different fiduciary activities should be reported.

GASB has issued Statement No. 87, *Leases*, effective for fiscal year ended June 30, 2022. This Statement establishes a single model for lease accounting based on the idea that leases are financings of the right-to-use an underlying asset. As such, under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and the lessor is required to recognize a lease receivable and a deferred inflow of resources.

These are the statements that the District feels may have an impact on these financial statements and are not an all-inclusive list of GASB statements issued. The District will evaluate the impact each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

**NOTE 2 – EXPLANATION OF CERTAIN DIFFERENCES BETWEEN FUND FINANCIAL STATEMENTS AND DISTRICT-WIDE FINANCIAL STATEMENTS:**

Due to the differences in the measurement focus and basis of accounting used in the Fund Financial Statements and the District-Wide Financial Statements, certain financial transactions are treated

**QUOGUE UNION FREE SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Exhibit 9

differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the governmental funds.

**A) Total fund balances of governmental funds vs. net position of governmental activities:**

Total fund balances of the District's governmental funds differ from "net position" of governmental activities reported in the Statement of Net Position. The difference primarily results from additional long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the governmental fund Balance Sheets.

**B) Statement of Revenues, Expenditures and Changes in Fund Balances vs. Statement of Activities:**

Differences between the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balances and Statement of Activities fall into one of three broad categories. The amounts shown below represent:

i) Long-term revenue and expense differences:

Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accruals basis, whereas the accrual basis of accounting is used on the Statement of Activities.

ii) Capital related differences:

Capital related differences include the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital items in the Fund Financial Statements and depreciation expense on those items as recorded in the Statement of Activities.

iii) Long-term debt transaction differences:

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Position.

**NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY:**

**A) Budgets:**

The District administration prepares a proposed budget for approval by the Board of Education for the following governmental funds for which legal (appropriated) budgets are adopted.

**QUOGUE UNION FREE SCHOOL DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Exhibit 9

The voters of the District approved the proposed appropriation budget for the general fund. Appropriations are adopted at the program line item level.

Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances), which may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year are increased by the planned use of specific reserves, and budget amendments approved by the Board of Education as a result of selected new revenue sources not included in the original budget (when permitted by law). These supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted. There were no supplemental appropriations for the fiscal year ending June 30, 2020.

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

Budgets are established and used for individual capital project funds expenditures as approved by a special referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project, plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

**B) Encumbrances:**

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year-end are presented as assigned fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

**NOTE 4 –DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS:**

**A) Cash:**

New York State law governs the District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the state. Permissible investments include obligations of the United States Treasury, United States agencies, repurchase agreements and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the state and its municipalities and districts.

**QUOGUE UNION FREE SCHOOL DISTRICT

FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Exhibit 9

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are as follows:

- A) Uncollateralized;
- B) Collateralized with securities held by the pledging financial institution; or
- C) Collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

All of the District's aggregate bank balances were covered by depository insurance or collateralized with securities held by the pledging financial institution in the District's name at year end.

Restricted cash:

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. These assets represent amounts required by statute to be reserved for various purposes. Restricted cash at June 30, 2020 included \$2,045,664 within the governmental funds for general reserve purposes, and \$268,746 within the fiduciary fund.

Investments:

The District does not typically purchase investments for long enough duration to cause it to believe that it is exposed to any material interest rate risk. The District also does not typically purchase investments denominated in a foreign currency, and is not exposed to foreign currency risk.

**NOTE 5 – PARTICIPATION IN BOCES:**

During the fiscal year ended June 30, 2020, the District was billed \$349,743 for BOCES administrative and program costs. The District's share of BOCES aid amounted to \$58,165. Financial statements for the BOCES are available from the BOCES administrative office at Eastern Suffolk Board of Cooperative Educational Services James Hines Administration Center 201 Sunrise Highway Patchogue, NY 11772.

The general fund has typically been used to liquidate long-term liabilities such as compensated absences, claims payable, other post-employment benefits obligation and net pension liability.

**NOTE 12 – PENSION PLANS:**

**A) Plan description and benefits provided:**

i) Teachers' Retirement System

The District participates in the New York State Teachers' Retirement System (TRS) (the System). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. The System is governed by a 10 member Board of Trustees. System benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors, and administrators employed in New York Public Schools and BOCES who elected to participate in TRS. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. TRS issues a publicly available financial report that contains financial statements and required supplementary information. The report may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany NY 12211-2395 or by referring to the TRS Comprehensive Annual Financial report which can be found on the System's website at [www.nystrs.org](http://www.nystrs.org).

ii) Employees' Retirement System

The District participates in the New York State and Local Employees' Retirement System (ERS) (the System). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability

system. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all new assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP) which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. ERS issues a publicly available report that includes financial statements and required supplementary information. That report may be obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany NY 12244 or by referring to the ERS Comprehensive Annual Report, which can be found at [www.osc.state.ny.us/retire/publications/index.php](http://www.osc.state.ny.us/retire/publications/index.php).

**B) Funding Policies:**

The Systems are noncontributory, except as follows:

1. New York State Teachers' Retirement System:
  - a. Employees who joined the system after July 27, 1976
    - i. Employees contribute 3% of their salary, except that employees in the system more than ten years are no longer required to contribute.
  - b. Employees who joined the system on or after January 1, 2010 before April 1, 2012
    - i. Employees contribute 3.5% of their salary throughout active membership.
  - c. Employees who joined the system on or after April 1, 2012
    - i. Employees contribute between 3% and 6% dependent upon their salary throughout active membership.
  
2. New York State Employees' Retirement System

For ERS, the Comptroller annually certifies the rates expressed as proportions of members' payroll annually, which are used in computing the contributions required to be made by employers to the pension accumulation fund, for the ERS' fiscal year ended March 31. The District's average contribution rate for ERS' fiscal year ended March 31, 2020 was 16.10% for Tier 4 and 9.60% for Tier 6 of covered payroll.

Pursuant to Article 11 of the Education Law, the New York State Teachers' Retirement Board establishes rates annually for TRS. The District's contribution rate for TRS' fiscal year ended June 30, 2020 was 8.86% of covered payroll.

The District contributions made to the Systems were equal to 100% of the contributions required for each year. The required contributions for the current year and two preceding years based on covered payroll for the District's year end were:

	NYSERS	NYSTRS
2020	\$ 53,216	\$ 260,358
2019	\$ 58,345	\$ 307,823
2018	\$ 70,828	\$ 242,603

**C) Pension assets, liabilities, pension expense, and deferred outflows and inflows of resources related to pensions:**

At June 30, 2020, the District reported the following asset/(liability) for its proportionate share of the net pension asset /(liability) for each of the Systems. The net pension asset/(liability) was measured as of March 31, 2020 for ERS and June 30, 2019 for TRS. The total pension asset/(liability) used to calculate the net pension asset/(liability) was determined by an actuarial valuation. The District's proportion of the net pension asset/(liability) was based on a projection of the District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the ERS and TRS Systems in reports provided to the District.

For the fiscal year ended June 30, 2020, the District recognized pension expense of \$125,429 for ERS and a pension expense of \$548,652 for TRS. At June 30, 2020 the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Assumptions

The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

**QUOGUE UNION FREE SCHOOL DISTRICT

For ERS, annuitant mortality rates are based on April 1, 2010 – March 31, 2015 System’s experience with adjustments for mortality improvements based on MP-2018. For TRS, annuitant mortality rates are based on plan member experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2018, applied on a generational basis.

For ERS, the actuarial assumptions used in the April 1, 2019 valuation are based on the results of an actuarial experience study for the period April 1, 2010 – March 31, 2015. For TRS, the actuarial assumptions used in the June 30, 2018 valuation are based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

The long term rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, *Selections of Economic Assumptions for Measuring Pension Obligations*. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of investment expense and inflation) for each major asset class, as well as historical investment data and plan performance. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation as of the valuation date are summarized below:

The expected rate of return is net of the long-term inflation assumptions of 2.5% for ERS, and 2.2% for TRS.

Discount Rate

The discount rate used to calculate the total pension liability was 6.8% for ERS and 7.10% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption

The following presents the District's proportionate share of the net pension asset/(liability) calculated using the discount rate of 6.8% for ERS and 7.1% for TRS, as well as what the District's proportionate share of the net pension asset/(liability) would be if it were calculated using a discount rate that is 1-percentagepoint lower (5.8% for ERS and 6.1%

Payables to the Pension Plan

For ERS, employer contributions are paid annually based on the System's fiscal year which ends on March 31. Accrued retirement contributions as of June 30, 2020 represent the projected employer contribution for the period of April 1, 2020 through June 30, 2020 based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2020 amounted to \$17,766.

For TRS, employer and employee contributions for the fiscal year ended June 30, 2020 are paid to the System in September, October and November 2020 through a state aid intercept, with a balance to be paid by the District, if necessary. Accrued retirement contributions as of June 30, 2020 represent employee and employer contributions for the fiscal year ended June 30, 2020 based on paid TRS wages multiplied by the employer's contribution rate,

and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2020 amounted to \$287,786.

**NOTE 13 – OTHER RETIREMENT PLANS:**

**A) Tax sheltered annuities:**

The District has adopted a 403(b) plan covering all eligible employees. Employees may defer up to 100% of their compensation subject to Internal Revenue Code elective deferral limitations. The District may also make non-elective contributions of certain termination payments based on collectively bargained agreements. Contributions made by the District and the employees for the fiscal year ended June 30, 2020, totaled \$10,000 and \$158,165 respectively.

**NOTE 14 – POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB):**

**A) General information about the OPEB plan:**

Plan Description

The District's OPEB Plan (the "Plan"), defined as a single employer defined benefit plan, primarily provides post-employment health insurance coverage to retired employees and their eligible dependents in accordance with the provisions of various employment contracts. Benefits are provided through the East End Health Plan. Article 37 of the Statutes of the State assigns the authority to establish and amend benefit provisions to the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Benefits Provided

The Plan provides medical and Medicare Part B benefits for retired employees and their eligible dependents. Benefit terms provide for the District to contribute between 85% and 95% of premiums for retirees, between 60% and 88% for family coverage, and 0% of the premiums for surviving spouses, depending on the coverage selected and date of retirement. The District recognizes the cost of the Plan annually as expenditures in the fund financial statements as payments are accrued. For the fiscal year ended June 30, 2020, the District contributed an estimated \$282,483 to the Plan, including \$282,483 for current premiums and \$0 to prefund benefits. Currently, there is no provision in the law to permit the District to fund OPEB by any other means than the "pay as you go" method.

Employees Covered by Benefit Terms

At June 30, 2018, the following employees were covered by the benefit terms:

**B) Total OPEB liability:**

The District's total OPEB liability of \$9,506,734 was measured as of June 30, 2019, and was determined by an actuarial valuation as of June 30, 2018. Update procedures were used to roll forward the total OPEB liability to the measurement date.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%
Salary increases	3.90%, including inflation
Discount rate	3.50%
Healthcare cost trend rates	
Pre-65 medical/hospital/retiree contributions	6.0% decreasing by 0.5% per year until an ultimate trend of 4.5% is reached
Post-65 medical/hospital/retiree contributions/Medicare Part B	4.50%
Prescription drugs	8.0% in 2020 decreasing by 0.5% per year until an ultimate trend of 4.5% is reached
Vision and administrative costs	3.00%

The discount rate was based on the yield on a 20-year AA municipal bond index as of June 30, 2019.

The mortality assumptions were based on the results of an actuarial experience study done by the Office of the Actuary of the New York State Teachers' Retirement System (NYSTRS) valuation as of June 30, 2018.

**NOTE 15 – RISK MANAGEMENT:**

**A) General:**

The District is exposed to various risks of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters, and other risks. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years.

**B) Risk retention:**

The District participated in New York Schools Insurance Reciprocal (NYSIR), a non-risk-retained public entity risk pool for its District property and liability insurance coverage through June 30, 2020. The pool is operated for the benefit of individual governmental units located within the pool's geographic area, and is considered a self-sustaining risk pool that will provide coverage for its members. The pool obtains independent coverage for insured events and the District has essentially transferred all related risk to the pool.

The District participates in the East End Workers' Compensation Consortium, a risk-retained pool, to insure workers' compensation claims. This is a public entity risk pool created under Article 5 of the workers' compensation law, to finance liability and risks related to workers' compensation claims. The District's share of the total undiscounted liability for incurred but unpaid claims and incurred but not reported claims is \$78,992.

General Fund	
General support	\$ 16,172
Instructional	57,518
	\$ 73,690

**B) Grants:**

The District has received grants, which are subject to audit by agencies of the state and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the District's administration believes disallowances, if any, will be immaterial.

**C) Litigation:**

As of June 30, 2020 we are unaware of any pending or threatened litigation or unasserted claims or assessments against the District which require disclosure.

**NOTE 17 – SUBSEQUENT EVENTS:**

Events that occur after the Statement of Net Position date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the Statement of Net Position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the Statement of Net Position date require disclosure in the accompanying notes. Management evaluated the activity of the District through the date of this report and concluded the following subsequent event has occurred that would require disclosure in the notes to financial statements:

On March 11, 2020, the World Health Organization declared coronavirus (COVID-19) disease as a global pandemic, due to the rapid increase in global exposure. The full impact of this pandemic is still evolving as of the date of this report; however, COVID-19 has interrupted District operations and financial performance. The future performance both operationally and financially will depend upon the duration and spread of the disease, the effect on students, employees, residents, and vendors, as well as federal and state funding, all of which are uncertain and cannot be estimated at this time.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON  
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Education  
Quogue Union Free School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the fiduciary fund of the Quogue Union Free School District, as of and for the fiscal year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Quogue Union Free School District's basic financial statements, and have issued our report thereon dated October 15, 2020.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Quogue Union Free School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Quogue Union Free School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Quogue Union Free School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Quogue Union Free School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
