

MATH FACT STUDY LOG

Each night please study your math facts, especially multiplication and division.

Ideas on how to practice math facts:

- * Flashcards
- * Music
- * Teach someone else
- * Draw a picture to represent the fact
- * Write the fact several times
- * Play board games, card games, or games on the computer/i-pad using math facts.

It is extremely important that students are studying at home each night. Your child should be able to answer each fact quickly without counting on their fingers.

Please initial on the line each day your child studies their math facts. If they miss a day, you should leave the line blank.

_____ **MONDAY:** My child studied their math facts at least 10 minutes.

_____ **TUESDAY:** My child studied their math facts at least 10 minutes.

_____ **WEDNESDAY:** My child studied their math facts at least 10 minutes.

_____ **THURSDAY:** My child studied their math facts at least 10 minutes.

_____ **FRIDAY:** My child studied their math facts at least 10 minutes.

_____ **SATURDAY:** My child studied their math facts for at least 10 minutes.

_____ **SUNDAY:** My child studied their math facts for at least 10 minutes.
